

Ruby on Rails 5.x

Do início ao fim!

Refatorando as views com partials

Refatorando as views com partials

- Comece criando o arquivo...

```
app/views/admins_backoffice/admins/shared/_form.html.erb
```

- Copie o conteúdo de **app/views/admins_backoffice/admins/new.html.erb** e adicione no arquivo criado

Refatorando as views com partials

- Altere a linha 03 e 25 do arquivo abaixo para...

```
# app/views/admins_backoffice/admins/shared/_form.html.erb
```

```
03 --->>      <h1 class="page-header"><%= action_message %></h1>
25 --->>      <%=   "#{action_message} Administrador" %>
```

Refatorando as views com partials

- Apague todo conteúdo do arquivo **app/views/admins_backoffice/admins/new.html.erb** e adicione apenas esse trecho abaixo...

```
<%= render partial: 'admins_backoffice/admins/shared/form',  
          locals: { action_message: 'Novo' } %>
```

Refatorando as views com partials

- Por fim, apague todo conteúdo do arquivo **app/views/admins_backoffice/admins/edit.html.erb** e adicione apenas esse trecho abaixo...

```
<%= render partial: 'admins_backoffice/admins/shared/form',  
  locals: { action_message: Editando } %>
```
