Ruby on Rails 5.x

Do início ao fim!

Altere o arquivo lib/tasks/dev.rake

```
# linha 16
show_spinner("Cadastrando algumas questões e respostas...") { %x(rails
dev:add answers and questions) }
```

Altere o arquivo lib/tasks/dev.rake

```
# linha 61
desc "Adiciona questões e respostas"
task add_answers_and_questions: :environment do
   Subject.all.each do |subject|
   rand(5..10).times do |i|
        Question.create!(
        description: "#{Faker::Lorem.paragraph} #{Faker::Lorem.question}",
        subject: subject
    )
    end
end
end
```

Ajuste o model app/models/subject.rb

```
class Subject < ApplicationRecord
   has_many :questions
end</pre>
```

Rode a nova task...

```
rails dev:add_answers_and_questions
# ou
rails dev:setup
```
